

Installation Sheet for IP18 - Minisphere

Product Name	Minisphere
Product Code	IP18
Document Release Date	06/09/2021
Document Rev	1
Total Install Hours	2 Hours
Concrete Required	0.11m ³

Installation Sheet for IP18 - Minisphere

INSTALLATION OVERVIEW

Two people are required for this installation.

Day One - 2 Hours

Check that all bolts and fixing are secure before installation.

Excavate to 500mm x 500mm x 450mm. See page 3. This is for the ground anchor support and cement.

Place a slab or similar hard standing base into the bottom of the excavated hole. Ensure this is level.

Position ground anchors in place. See page 4. Ensure the ground anchor is level.

Pour cement into the excavated hole, making sure that the inground support structure is fully immersed.

A total of 0.11m³ is required of cement.

When cement is set, Ensure there are no sharp corners of the cement exposed. Ensure unit functions without breaking away from the installed foundations.

CHECK PRODUCT IS LEVEL AND SECURE.
